BODYGUARD[®]

T 280^C

CHARACTERISTICS

ADVANTAGES

Electronic Stride Control (ESC)

Unique to Bodyguard, this system ensures that the selected speed remains the same regardless of the user's weight or the incline of the treadmill.

Sorbothane's dual Shock Dissipation System

Gives you lower impact exercises and reduces joint stress.

Belt Orthopedic 20" x 57"

Offers added comfort and support for a lower impact exercise to reduce joint stress. The large running surface gives you plenty of drift space.

Motor 3 hp DC

This quiet, smooth and reliable motor gives you great acceleration with speed up to 11 mph

4 data windows

Provide all the information required for an effective workout including graphic profiles and scrolling information.

Heart Rate Access & Telemetric receiver

Evaluate and adjust your program by switching to the Heart Rate Access program at any time during your workout.

Digital Contact Heart Rate

Allows you to measure your pulse accurately to better monitor the intensity of your workout without having to wear a chest strap.

Advanced Friction Detection System (AFDS)

This advanced protection system prevents overheating of the motor and shortage of the drive by verifying, in real-time, the friction level between the running belt and the deck.

WARRANTY

HOME USE

FRAME	LIFETIME
MOTORS	LIFETIME
PARTS ¹	10 YEARS
LABOR	3 YEARS
SEAL OF APPROVAL	

¹ONCE THE LABOR WARRANTY HAS EXPIRED, THE SHIPPING AND HANDLING CHARGES FOR THE PARTS WILL BE THE END-USER'S RESPONSIBILITY.
